## **Professional Projects**

**Projects 1:** Marketing eCommerce (*Nov 2022 – Present*)

**Technologies:** React, BigCommerce, Stencil CLI, Typescript, JQuery, Javascript, Sass, Stripe

**Role & Responsibilities:**

- As a senior frontend developer, I helped develop and maintain the Client's themes, dynamic widgets in BigCommerce. Also, integrated React with BigCommerce themes to add dynamic pages.
- Integrated digital wallets with the BigCommerce's checkout sdk.
- To perform code reviews and solve technical issues with the team.
- Additionally working with Client on reviewing figma designs and grooming and estimating user stories.

**Project 2:** Health SFRW (*February 2021 – Nov 2022*)

**Technologies:** NextJS/React, Material UI, Wordpress

**Role & Responsibilities:**

- As a front-end developer to develop and maintain the client's dynamic pages and components in Nextjs.
- Proactive interaction with the client on designs and features improvement.

**Project 3:** Secure Loyalty Wallets (*Feb 2019 - Feb 2021*)

**Technologies:** Javascript, Html, Bootstrap, Wordpress

**Role & Responsibilities:**

- To fix bugs in client's html, css and javascript based web application and maintain the cms in wordpress.
- Develop small features like login page and menu bar.
- Ensuring the application is responsive in each build cycle.

## **Achievements**

- Most valued player by client Straighterline.
- Multiple xtra-mile awards for contributions in 3Pillar Global.
- Various accolades & appreciation notes in Sunquest Information Systems
